Accommodation Concern was established in 1987, evolving from the shared vision of local day centres, clergy, and Councillors of all political persuasions. The vision was for an organisation to work with people affected by homelessness locally and those in a precarious housing position.

We know that prompt and accurate advice may help service users to make informed choices and can often help prevent the trauma, emotional, physical and financial cost of homelessness. We all work hard to support clients to meet their basic needs and realise their potential. People can rely on us for support, advice, life skills training and practical assistance.

Please apply with a CV and a covering letter stating how you meet the person specification why you feel you would be suitable for the role; together with the hours you can work.
